## About CLASS, Inc.

CLASS serves more than 400 individuals in 48 cities and towns in northeast Massachusetts.

Since 1976, CLASS, Inc. has supported families whose children with intellectual and developmental disabilities and autism are the most underserved and vulnerable members of our communities. Individuals enroll in our programs at age 22, following graduation from high school, and continue on a path of meaningful educational activities, volunteerism and, if suited to them, employment. We provide clinical, therapeutic, educational and occupational training programs that promote independence, community inclusion, social skills development, and employment. Our services are based upon a belief that each individual has the right to realize their full potential.
